Ishika Thakor

+91 8602881398 | ishikathakor1703@gmail.com | GitHub | LinkedIn

PROFESSIONAL SUMMARY

Final-year CSE student with hands-on experience in Machine Learning and AI. Proficient in Python, SQL, Pandas, NumPy, Scikit-learn, and TensorFlow, with a track record of building end-to-end AI-powered applications.

TECHNICAL SKILLS

Languages: Python, C++, SQL

Technologies: Pandas, NumPy, Matplotlib, Streamlit, Scikit-learn, TensorFlow, DAX, Power Query

Core Concepts: Object-Oriented Programming (OOP), DBMS, DSA, Machine Learning, Data Analytics, Data Visualization, REST APIs, Agile Methodology, SDLC

EXPERIENCE

Intern Jun 2026 – Jul 2026

AV Internationals Ltd. — Mathura, India

- Researched 100+ companies and market opportunities to support export strategy and R&D initiatives. Engaged with 50+ clients through email and phone, supporting business outreach and cross-border communication.
- Prepared 10+ research reports by analyzing business and market data to support operational decision-making.
- Organized and maintained data on 150+ companies and client interactions, helping track potential opportunities and streamline business development activities

EDUCATION

Vellore Institute of Technology Sep 2023 – Present

B.Tech Computer Science and Engineering

- CGPA: 8.57/10

PROJECT EXPERIENCE

Healio — AI Mental Health Support Platform Sept 2025

- Developed an AI-powered mental wellness platform using Python, Streamlit, and the Google Gemini API for context-aware conversations.
- Implemented NLP-based sentiment and intent analysis using 3 approaches — VADER, TextBlob, and transformer-based models.
- Built a doctor recommendation system using 3 ML models — Logistic Regression, SVM, and Random Forest — to map moods and symptoms to specialists.

AI Model Training Code Generator Dec 2025

- Developed an AI-powered chatbot using Streamlit that converts natural language prompts into Python code, supporting 3 major ML frameworks including Scikit-learn for automated model development.
- Integrated Hugging Face models with 3 ML frameworks to automate code generation, enabling rapid experimentation across multiple ML workflows.

EXTRACURRICULARS

WWT Women-Only Hackathon Jul 2025

- Selected among the Top 25 teams in a Women-Only Hackathon out of 1,000+ teams.
- Designed 'Hausla', a centralized platform aggregating 100+ government schemes to help women easily find and access benefits based on eligibility, improving awareness and accessibility for more than 50 million women in rural and urban areas.

Societe Generale Hackathon Jun 2025

- Finalist at the Societe Generale Hackathon.
- Developed a structured Bug Bounty Methodology covering 10+ vulnerability categories and 50+ security testing techniques for systematic web application assessment.

100 Days Code Challenge

- Solved 200+ challenges on LeetCode and GeeksforGeeks, showcasing advanced algorithmic skills.

ADDITIONAL

Certifications & Training: Google Data Analytics Professional Certificate; Fundamentals of AI and ML; Introduction to Programming Using Python (Vityarthi)

Languages & Hobbies: Fluent in English and Hindi; Travelling, Trekking
