EDUCATION

VIT Bhopal University Bhopal, India
B.Tech CSE(Specialization in Cyber Security & Digital Forensics) Sep 2023 - Present
- CGPA: 8.57/10

San Thome Academy Dewas, India
Central Board of Secondary Education (Class XII) Mar 2022 - Mar 2023
- Percentage: 82%

Army Public School Mhow, India
Central Board of Secondary Education (Class X) Mar 2020 - Mar 2021
- Percentage: 94.8%

TECHNICAL SKILLS

- **Languages:** Python, Java, JavaScript, C++, SQL
- **Technologies:** React.js, Next.js, TensorFlow, PyTorch, Scikit-learn, Hugging Face, Pandas, NumPy, Matplotlib, MongoDB, Supabase, Docker, Streamlit, Git, GitHub Actions, Postman
- **Core Concepts:** Data Structures & Algorithms, Object-Oriented Programming (OOP), DBMS, Machine Learning, Data Analytics, Data Visualization, REST APIs, Agile Methodology

WORK EXPERIENCE

The Technogen **Hyderabad, India**
Web Development Intern Mar 2024 - May 2024
- Gathered and interpreted client requirements to define scope, then delivered 8 responsive web pages focused on scalability, improved user engagement, and client-aligned solutions.

PROJECT EXPERIENCE

AI Model Training Code Generator (2026)
- Developed an AI-powered chatbot using Streamlit that converts natural language prompts into Python code, supporting **3 major machine learning frameworks (TensorFlow, PyTorch, and Scikit-learn)** for automated model development.
- Integrated **Hugging Face models** with **3 machine learning frameworks** to automate code generation, enabling rapid experimentation across multiple ML workflows.

Gym Membership Management Platform (2025)
- Identified admin pain points in membership tracking and designed a centralized platform to streamline workflows for 100+ members, reducing manual effort through automation.
- Defined product requirements for automated membership status tracking, invoice generation, and real-time progress monitoring — successfully adopted by 80+ active users.
- Built a comprehensive admin dashboard with income graphs and unpaid member tracking, prioritizing features based on operational impact using Next.js, Supabase, and Tailwind CSS.

MicroTask Vault(2025)
- Defined user flows for freelancers and content creators, prioritizing an AI-driven task allocation feature and a CLIP-based thumbnail suggestion system to improve labeling efficiency and platform adoption.
- Translated product requirements into responsive dashboards, landing pages, and user components using Next.js and Tailwind CSS, enabling smooth real-time operations.

EXTRA CURRICULARS

Societe Generale Hackathon
- Finalist at the Societe Generale Hackathon.

Women-Only hackathon
- Selected amongst Top 25 Team in a Women-Only Hackathon.

ADDITIONAL

- **Certifications & Training:** Google IT Support Professional Certificate
- **Languages & Hobbies:** Fluent in English, Hindi, Trekking, Travelling.
